

PROFILE

Product-minded marketing copywriter with 13 months of hands-on brand-copy experience and a practical AI/software background. Strongest where copy has to make a system understandable, credible, and easier to act on. Experienced across brand messaging, product prototypes, digital media, B2B lead generation, and AI-assisted writing workflows.

CORE SKILLS

COPY + MESSAGING

Product messaging, brand copy, ad concepts, landing-page copy, social copy, buyer hesitation, tone control.

AI + PRODUCT

AI research workflows, prompt engineering, local AI, product prototyping, B2B lead-generation systems, market research automation.

TOOLS

Google Analytics, Canva, Photoshop, Premiere Pro, After Effects, Lightroom, Topaz Photo, Vercel, email APIs.

PROFESSIONAL EXPERIENCE

- Brand Copywriter & Model** May 2025 - Present

Hanbyul / Toronto, ON

 - Write brand and marketing copy for a Korean menswear brand in Canada, with messaging built around approachable styling and everyday wearability.
 - Align copy, modeling, and visual direction so ordinary or lightly styled images feel intentional rather than underproduced.
 - Develop copy angles for buyers who want to dress better but may feel intimidated by fashion, trends, or over-polished product imagery.
- AI Solutions Developer & Marketing Consultant** Jan 2023 - Present

Freelance / Toronto, ON

 - Build AI-assisted workflows for research, copy variation, product analysis, and technical messaging while keeping final judgment human.
 - Developed EKNOC, a B2B lead-generation platform for the Canadian market, including ICP mapping, data scoring, and sales-intelligence workflows.
 - Translate technical product logic into clearer buyer-facing language across SaaS, fashion-tech, and community product contexts.
- Media Team Lead & Digital Strategist** Apr 2026 - Present

PassionFruits Ministry / Toronto, ON

 - Lead web and Instagram media work for a community organization, shaping content direction, digital presence, and audience-facing messaging.
 - Use research, content planning, and analytics-informed iteration to make digital communication clearer, faster, and more consistent.

SELECTED PRODUCT + WRITING PROJECTS

DRESS-UP / Android Fit-Studio Prototype

Built a fashion-tech prototype with personalized 2.5D body preview, outfit layering, saved looks, and shareable lookbook logic.

EKNOC / B2B Lead-Generation Platform

Designed automated lead scoring and ICP workflows for Canadian B2B prospecting, connecting raw data to sales decisions.

BLESSIE / Mobile Community Prayer App

Developed mobile product flows and release-readiness materials for a community prayer app.

Korean Theology + Philosophy Blog

Operate a long-form Korean blog with about 15,000 visitors.

EDUCATION

Centennial College / Software Engineering - Artificial Intelligence, 2023 - 2024 (Leave of Absence)

Heritage International School / High School Diploma, 2023
